Dear Maya Agarwal,

Congratulations on being chosen to represent your institute, Bengal Institute Of Technology , as a **Microsoft Student Partner**.

You are now part of an exclusive community of students who have the power to make a difference. Your technical skills and your leadership skills, your passion for technology, and your willingness to share your expertise have been acknowledged by your selection as a Microsoft Student Partner.

As a Microsoft Student Partner, you are tasked with carrying the voice, the strength, and the value of Microsoft's offerings to students in your institution and across the country. Through your efforts in organizing technical sessions, hands-on-labs and other such events, you are one of the few select student-influencers who could become a next-generation leader. Also, through your valuable feedback to Microsoft, you will help us build better products for academia and more valuable faculty and student programs.

You will also soon gain access to <http://www.microsoftstudentpartners.com>, the Microsoft Student Partner portal, which will be the primary means of interacting with other Microsoft Student Partners within the country and across the globe.

Once again, we'd like to congratulate you and we look forward to a long-lasting and impactful relationship.

Yours sincerely,
On behalf of the Microsoft India Academic Team
